Started coding at 15, co-founded a digital agency at 18 and now build my own B2B SaaS products while studying Computer Science at the University of Buenos Aires. Focused on scalable backends, data at scale and AI in production.

EXPERIENCE

Loona loona.com.ar

Buenos Aires, AR

Founder · Lead Software Developer & Architect

2026 – Present

CRM for agencies and sales teams, built as a more affordable alternative to Attio.

- ◆ Designed and built the product end to end: data model, APIs and web app.
- ◆ Integrated the CRM with Meta Ads so pipelines send lead quality back to the campaigns.
- ◆ Built an AI agent for client follow-ups, plus workflows, a public API, webhooks and an MCP server.

Location location.com.ar

Buenos Aires, AR

Founder · Lead Software Developer & Architect

2025 – Present

B2B location-intelligence SaaS that helps businesses decide where to open their next store in Argentina.

- ◆ Built a map platform on top of census, demographic and socioeconomic GeoJSON datasets.
- ◆ Worked extensively with the Google Maps Platform APIs to map competitors and points of interest.
- ◆ Added potential-revenue projections for any location, assisted by an AI agent.

Synera synera.com.ar

Buenos Aires, AR

Co-founder · Lead Software Developer & Architect

2023 – Present

Digital agency co-founded with three partners to deliver high-quality digital services.

- ◆ Lead architecture and development of client platforms in ecommerce, fintech and logistics.
- ◆ Defined the layered architecture (controllers, services, repositories) used across every project.
- ◆ Built payment, invoicing and shipping integrations with webhooks, retries and idempotency.

AWARDS

Anthropic Hackathon Argentina

2026

1st place, e-commerce track · US\$30,000 in Claude API credits

- ◆ Built a Mercado Libre lister that turns a product photo into a published listing with title, SEO and promotions.
- ◆ Powered by a DSPy program trained on 2,000 products from the selected category.
